
BUILT AROUND THE OWNER

1. OWNER'S ENTRY: garage door opens into a private hall. Straight ahead 17' is your bedroom door.

2. Drop zone first: lockers + bench by the garage door. Keys, bags, boots stop there.

3. Laundry is the first door off that hall, and it opens into your closet. Washer to hanger: 10 ft.

4. Closet -> bath -> bedroom all connect, so you can get ready without crossing the house.

5. Kitchen opens off the same hall: groceries go garage -> hall -> island, never through the living room.

6. Kids' wing + office on the far end, own bath.

7. Simple 60' x 30' box, one main roof.
